Pronoun and Gender Updates

Pronoun and Gender Updates
January 29, 2024

The student **Details** tab has been updated to include fields for **Preferred Gender** and **Preferred Pronouns**.

For districts with an active demographics integration with their SIS, gender will continue to be updated automatically in SameGoal based on **Legal Gender** in the SIS unless users choose to update gender in SameGoal manually. **Preferred Pronouns** are optional and require manual maintenance.

For more information and to learn about how gender and pronouns impact reporting, user bank substitution, and document prefill, please visit the Pronoun and Gender support page.
